

# Transform your leaver process

61%

of businesses want self-serve payslip access for leavers

180K

leaver processes transformed in 2022

## The problems companies face when employees leave

- Employees lose their payslips, documents and passwords
- Notice can be variable in length, making process difficult to apply effectively
- Leavers frequently request payslips and documents after they've left
- Leavers have no access to emails, intranet or portals once they've departed
- HR spending time supporting leavers instead of existing employees

## Our offboarding saves you time

- P45s can be uploaded in bulk and scheduled in advance
- Automated emails remind leaver to download payslips
- Leavers can access payslips for a time period you set
- Leavers can self-serve if they forget their password

Save yourself from wasted time and headaches

## What is PayDashboard?

PayDashboard delivers a better payday experience that educates employees on their pay, improves access to fairer finance, and provides opportunities for employers to support the financial wellbeing of their staff.
